Sky Q 2TB with Ultra HD box specifications

Physical connections

- 2x F-connectors (Satellite in 12V, 300mA)
- 1 x USB 2 port, able to supply 1A
- 1x HDMI 2.0 for 4k output with HDCP 2.2
- 1 x Digital audio optical S/P-DIF connector (Digital Audio)
- 1 x 10/100/1000Mb/s Ethernet provided via rear panel RJ-45 connector
- Mains (Mains input 230V)

Wireless connectivity

- 5 GHz - Wi-Fi 802.11 n/ac support for 4x4 MIMO
- 2.4GHz Wi-Fi - 802.11 b/g/n support for 2x2 MIMO
- Must support concurrent Wi-Fi
- Bluetooth 4.0 LE & 4.0 Classic support

Core system

- 2TB Hard Disk Drive, 1.7TB for customer use.
- Supporting up to 350 hours of HD recordings
- As default record 5 channels while watching a 6th, with the option to change your settings to record 6 channels and watch a 7th.
- Ability to support simultaneous viewing on two devices using the Sky Go app
- Ability to support simultaneous viewing on two Sky Q Mini boxes
- Ability to broadcast Ultra HD content

Visual

- 4:3, 16:9 aspect ratio support
- Video resolution supported: –2160p, 1080p, 1080i, 720p, 576p

Audio

- Digital audio optical S/PDIF connector
- Dolby Digital support, over HDMI and Optical
- Digital Video Broadcasting (DVB) compliant video and audio decoding
- Atmos pass through
- Multi language audio & subtitle recording allowing track selection on playback
- Audio decoding with sampling rates of 32, 44.1 or 48 kHz
- Airplay 2.0

Satellite receiver and security

- Full Band tuner 290-2340MHz
- DVB-S/S2 demodulation and error correction
- Digital Video Broadcasting (DVB) compliant video and audio decoding
- Support wideband and dCSS Unicable LNB
- Power source available for LNB of 600mA @12V DC available from either port

Power consumption/Power saving features

- Total Energy Consumption in line with Voluntary Industry Agreement for Complex STBs

Sky Q box dimensions: 330mm wide x 210mm deep x 35mm High
