

Don't miss out on a world of TV

Start watching On Demand today

There's so much to enjoy with our On Demand service

Full series boxsets, latest episodes of the biggest shows on Catch Up TV - now with ITV Player and Demand 5, kids' favourites and much more - all ready and waiting for you. Got Sky Movies 1 and 2? You can enjoy hundreds of movies on demand too.

Get started

Connect your Sky+HD box to your broadband router to open up TV on demand. It's easy to do - find out how over the page.

To find out more, go to sky.com/ondemand

Believe in better

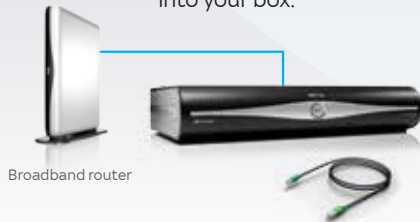

It's easy to get set up for On Demand

Getting set up is simple

STEP 1 - GET CONNECTED

If your Sky+HD box and broadband router are in the same room

Plug one end of an Ethernet cable into your router and the other into your box.

You'll find an Ethernet cable in your router packaging.

If your Sky+HD box and broadband router are in different rooms

Connect wirelessly with a Wireless Connector.

STEP 2 - THEN ENJOY

Turn on your TV

Press the red button in your TV Guide and there it is – hundreds of hours of entertainment on demand.

If your screen doesn't look like this, take a look at our set up video or go to our online help page.

For more help setting up, go to sky.com/ondemand

Please note On Demand is the new name for Sky Anytime and Sky Anytime+

On Demand: Available to Sky TV customers with compatible box. Downloading content requires compatible Sky+HD box, fast enough broadband connection, On Demand activation and self set-up using own cable or wireless connector. Downloads count towards monthly usage caps. Content depends on your Sky TV/HD subscription. Sky Movies Pack or Sky Sports Pack required for Sky Movies or Sky Sports. Correct at 01 October 2012.
